The Elementalist Staff - Branded with runes and imbued with the power of Elemental magic, this staff looks like an oversized baton but with the ability to rain down lightning, summon and control Elementals, cast arcane spells and summon mystical creatures, it is almost the ultimate magical weapon. Guardian of the Tower - Over time, the Tower has become a chilling vision of itself. Watch over the most important players as they fight for the control of the legendary artifact. Take the control of the Tower for yourself, and pledge your allegiance to one of three possible outcomes! Complete this quest and your effort will be noted by the staff. If you are the last player standing on the final day, the staff will identify your actions, making you the owner of this prize. Your experiences and choices will define the future of the Tower and the fate of the realm in this episodic campaign. Screenshots: "Fantastic! The fights are great, the graphics are great, and the soundtrack is great. I can't wait to have the player's experiences in the tower reflected into the game! May your journey be a good one! Thanks for this!" - Clifton Park Studios, Full Disclosure, Play as Many Times as You Like The Elementalist staff also gives an artifact slot for players to obtain for later use. Artifact Slots can only be used with artifacts found in this expansion. "The experience and intensity of the battles is incredible. From the lightning-spewing to the pounding fists, the choice to fight is yours and, if you make it, an entire mountain will fall. If you survive, the road to the tower will continue on and, if you're not the last standing, the tower will reveal its secrets." - Audiowitch Games, Realize the Elementalist "If you like Spelunky, but want a fantasy world, and a near endless number of games that are just as challenging and fun, this is the mod for you. The resource management is handled extremely well and the pace of the game is near perfect." - TheUnult, A Replicant Invasion! "There are so many awesome upgrades to your character, the technology and resources you get along the way are top notch and the idea of exploring the many hidden areas and dungeons of the mountain is quite interesting. There is an ominous, gothic atmosphere that hangs over the whole thing, which complements the fiery visuals in a way that is actually very pleasing to
