The danger posed by the fierce demon lord Pitch, the slumbering darkness from the evil ruler, Talum, and the terror of a stranger threatening our village—all these dangers are obstacles that confront you on your journey to become an Elden Lord. But don't worry, help will arrive to ensure your safe passage. Features: 1. A Vast World Full of Excitement The world map as shown above is comprised of approximately 110 regions, each of which is composed of several areas. In these areas, environments and NPCs (Non-Playable Character) appear. The combination of these leads to an abundant amount of content, with even more content still left to be discovered. The variety of content is rendered using a 3D engine. In open fields, you will be able to experience a sense of mystery, where there is nothing but the grass on the ground. But, in the form of a deserted town, you can discover the terror of the past or the unrest of the present. You can also experience a wide range of game atmospheres. 2. Create Your Own Character Create your own character using a variety of options. You can freely customize your appearance according to your play style, such as your hair and face color, or skin tone, and the weapons, armor, and magic that you equip. As with the character customization, you can freely choose among a wide variety of combinations. By combining the weapons, armor, and magic you equip, you can freely create your character, and the development and growth of your character will also become more exciting as you take on challenges. 3. An Epic Drama Born from a Myth In this game, a multilayered story in which the various thoughts of the characters intersect in the Lands Between. The game is centered on the character, Tarnished, who pursues his journey to the Elden Lord. A wide variety of NPCs accompany his adventures, and the drama of these events unfolds to become an epic story. 4. Unique Online Play In addition to multiplayer, which allows you to directly connect with other players and travel together, the game supports a unique asynchronous online element.
